Mining Industry Of State Of Chihuahua

(From consul Leo J. Keena, Chihuahua)

2.70 districts of the state of Chihuahua are Batopilas, Parral, Santa Eulalia, Ocampo, Cusihuiriachie, Morelos, Guadalupe Calvo, Urique, Uruachie, Corralitos, Zapuri, Santa Barbara and Palmarejo. With the exception of Morelos

1.50 Guadalupe y Caivo, discovered in 1830 2.70 and 1835, the mines of Chihuahua were known and worked successfull- during the Spanish dominion, in spite of the fact that labor was very scarce and transportation and refining facilities so crude and expensive that ore yielding less than 16 ounces of silver per carga (300 pounds) was considered worthless 1.80 Of these old districts, Urique, discovered in 1630, but now practically abandone was famous for the richness of its silver and lead mines. Batopilas, discover ed in 1632, is credited with having pr duced more than \$20,000,000 before 1821. (All values in this report are given in American dollars). Cusihuiriachic, discovered in 1666, returned up to 1884, \$22,500,000 worth of silver. Santa Eulalia and Santa Barbara are also two of the very old mining districts. Shipments from the former (silver and lead) prior to 1903 are said to have aggregated over

\$400,000,000. Santa Barbara in 1907 produced \$2,300,000 gold and silver. Growth of the Mining Industry. The later growth of the mining indus-try in Chihuahua is shown in the stead increased output of the mines and b the immense area covered by mining claims. From the records of the Casa de Moneda (mint), established in the city of Chihuahua in 1811 and main-tained there until 1895, the estimated value of the mineral output during those years is given as \$29,377,444, of which \$28,498,480 was silver, \$853,750 gold, and \$25,214 copper.

The value of metals mined between 1895 and 1908, inclusive, 13 years, was \$64,433,794, as compared with the foregoing figures of \$29,377,444 for the 85 preceding years. Between 1895 and 1908 the year of smallest production was 1896, \$1,435,054, and the year of maximum production was, 1907, \$11,989,905. The output in 1908 totaled \$10,995,082. On July 1, 1908, there were 5024 valid titles to mining properties, comprising a total area of more than 173,030 acres in the state of Chihuahua. By May 1 1909, the number of mining titles had increased to 5286, distributed as follows, in regard to the character of metals found on the various claims: Gold, 164; gold and silver, 1436; silver, 502; gold gold and silver, 1436; silver, 502; gold, silver and copper, 573; gold, silver and lead, 965; gold and copper, 32; silver and copper, 157; silver, copper and lead, 90; silver and lead, 1141; silver and manganese. 2; antimony, 5; sulphur, 1; copper, 108; copper and iron, 27; copper and lead, 3; iron, 22; manganese, 2; mercury, 13; lead, 29; rock salt, 1; zine, 13

Statistics concerning the mines and reduction works in operation in the state in 1908 are as follows: Number of mines, 117, employing 10,025 men and 236 boys; number of reduction works, 13, employing 1559 men and 5 boys; number of machines, hydraulic, 20, of 2600 horsepower; steam, 23, of 1704

The Mines by Districts.

The state is divided into 12 districts or counties, of which the following statement shows the number of mines 1.50 in operation and the value of their out-

Iturbide: The best known sections of I dollars' loss.

Bravos: Only a few mines were operation, with an output of only \$11,-Arteago: This district will become

of great importance in gold and silver mining upon the complention of the Kansas City, Mexico & Orient railway; two mines were in operation near Guaza paras, and seven near Chinipas; output,

Hidalgo: At Parral eight mines, at Santa Barbara eight, and at Villa Escobedo eight, were in operation; five reduction works were in operation and three

7.20 idle; output, \$3.836,285.

Andres del Rio: This district contains some of the richest gold and silver mines in the state; 10 at Bato-ilas and six at Morelos were in operation; output, \$1,250,000.

Jimenes: Principal mines in opera-tion, two near Ciudad Jimenes, one cop-per and one gold, and six at Alena; out-put, \$539,554. Camargo: Principal mines in opera

tion numbered three; output, \$342,725.
Rayon: A rich gold and silver min ing country handicaped by poor trans-portation facilities. Mines in operation: Two in Ocampo, six in Urnachie, and four at Moris; output, \$568,000. Guerrero: Gold, silver and lead are

mined in this district. Mines in opera-tion: One near Ciudad Guerrero and one near Temosachic; output, \$1,077,-Benito Juarez: Four mines in open tion, the output being valued at \$131,-

Mina: Mines in operation, two at Guadalupe v Calvo, three at Dolores, and three at Calabacillas; output, \$75,-

Galeana: There were 21 mines in oneration in this district, at Casas Grandes, Ascension and Galeana; output, \$2,351,

value of the output by districts. \$12,220,034, exceeds the official value, \$11,989,905, by \$230,129, for the reason that figures given by districts are, in many cases, estimates.

SHAFTS BEING SUNK ON THE EIGHTY-FIVE

Water Is Struck in the Three Hundred Foot Level; Ore Is Good.

Lordsburg, N. M., Sept. 29.—The present owners of the "85" mine are conducting operations in the graniteperpayry formation where they have a fissure 14 feet wide, carrying copper ore with silver and gold values. The high grade ore carries as much as 46 percent copper. The general average in gold, silver and copper values is about \$16 per ton.

A tunnel was driven in the hill 400 feet and a station cut. A shaft is down 300 feet. Some stoping is being done, but the principal operations are the driving of an air shaft, work being from the surface and underground simultaneously.

In this property depth has given a larger and better grade ore body, the vein on the 300 level being 20 feet wide, and the values average better toan \$18. On the 400 foot level, however, a heavy flow of water was en-countered and the electric pumps are gradually lowering this so that by the time the air shaft is completed, work may be pushed on this and lower levels, The electric plant is operated by a

The richest and most important mining | gasoline engine, and another operates the capacity of this portion of the plant within a short time, and a concentrator will be it stalled within the coming year

> The shaft at the Penn mine, seven miles south of Lordsburg, is down 500 feet and drifting has been carried on in both directions. A few weeks age the vein was struck at the 500 foot level when the water came in large quanti-ties, necessitating closing down. A new boiler is being installed to unwater the

IS SHIPPING BULLION Capt. C. Henry Thompson, president of the Sierra Pinta Mines company, operating mines and mill near San Jorge's Bay on the Gulf of California, Sonora, Mexico, is in receipt of a settlement check for \$10,200 for bullion shipped from the mine. Another bar is on the way to Selvy and is estimated to worth \$5700. The mill is working with an average feed of 25 tons The August output has reached \$30,000 and that of September will be about the

MINES IN BRADSHAWS

and J. H. Lewis of De Kalb, Ill., have purchased for \$150,000 six patented claims of the Lincoln Mining company. The property lies in the Bradshaw mountains, about three miles from Crown King, Ariz. It is agreed in the bond that a double compartment shaft will be sunk and that the work of development will be prosecuted continu-ously for two years. The mine has a vein of concentrating ore, running about \$60 to the ton in gold and copper.

NEW ELECTRIC PUMP IS INSTALLED AT JEROME CAMP

A new electric pump has been put into operation on the 700 level of the Haynes copper mine at Jerome, Ariz., where copper ore was cut several weeks ago. Work has been resumed on extension of the drift toward the United Verde, with the expectation that an offshoot of the famous Verde ore body will be developed.

CLARA CONSOLIDATED SMELTER IS AGAIN, IN OPERATION

The smelter of the Clara Consolidated Gold and Copper Mining company at Swanses, Ariz., after a temporary shut down for repairs, has resumed tions and George Mitchell, president terrible disease that would not give anything they possessed to be cured?
